yes

Animal 1 explain medical issues

he seems to have 2 masses around his neck and for the past week he hasnt wanted to eat very much

Animal 1 photo

19818#1.jpeg

Just a few more questions...

How long have you had the animals?

4 months to 1 year

Reason(s) for concern - click all that apply.

- behavior
- cost of vet care
- moving
- conflict with others

If moving, why can't pet(s) go?

i already have 2 other dogs

How we can help you keep your animals?

I really wish we could keep him. We really tried to keep him or give him to family but he isnt the friendliest dog. he tends to snip at others, humans and animals alike. My great aunt bestowed him on me without telling me a few things. He is obviously a very cute dog but has alot of feistiness in him. He is crate trained but im guessing she kept him there all the time because when we try to place him there for the night he doesn't like it. He is around 10 years of age and is literally like a grumpy grandad. He doesn't like when you pass him by and make sudden movements. He will snip when we do so. He doesn't quite get along with our female chihuahuas, as he is curious about them but is easily bothered by their presence. We have had him for about a year thus far to see if he will acclimate with our family but it hasn't been fruitful. Last week we noticed 2 masses formed around his neck and he has slowly been getting skinnier. He is eating but not like he used to. Unfortunately we are not in a situation that we can keep him financially anymore.
