How we can help you keep your animals?

I cannot keep her; she is increasingly aggressive with other dogs in the home and my grandchildren. I am afraid she will injury someone. I have tried to work with her and make her feel secure, but since my husband's death three years ago the situation has deteriorated, she sometimes is aggressive. towards me when I give her directions to crate, snapping at my fingers when I close the crate door. This is a decision I have agonized over,

Admin notes

10/18/23 Contacted owner and explained that due it the pets behavior it would be best to bring the animal for Euthanasia and that most likely the animal would have an outcome of euthanasia even if she did an owner surrender. I also explained that our surrenders are booking out to feb. and march currently and I was concerned about someone getting hurt during the wait. I explained I was very sorry to give her this outcome but the shelter environment was very stressful on dogs and that this type of behavior was more likely to amplify than to get better. She understood and I told her to think about it some and to call us back with her answer on what she wants to do. She said she had a friend that has a friend that might be interested. She maybe be calling back to let us know. Chardy.
