Animal 1 explain medical issues

He's a stray I found and decided to take in after no one claimed him. He was throwing up constantly so I took him to the vet shortly after taking him in for a full check up and cleaning his teeth. After a sonogram the diagnosis was IBD or cancer but to know for certain we needed to do a biopsy. I am unable to do the biopsy. He's gotten better with a prescription diet and eating many small meals.

Just a few more questions...

How long have you had the animals?

4 months to 1 year

Reason(s) for concern - click all that apply.

- behavior
- cost of vet care

How we can help you keep your animals?

Nothing - I need to rehome him. I've tried all I can at this point and spent thousands of dollars trying to keep him and making it work. I can provide proof if needed.
