Animal 1 explain medical issues

IBS with vomiting at least once a day - seen two different vets, put on two different meds at one, given fluids, antibiotics, steroid shots (2) and oral steroids (dupe something) - still vomiting - a very unhappy little boy, under the bed a lot.

Just a few more questions...

How long have you had the animals?

1 - 2 years

Reason(s) for concern - click all that apply.

- cost of vet care
- moving

Other reason not listed

vomiting every day - constant need for clean up

If moving, why can't pet(s) go?

the big issue is the constant vomiting - the moving is several months away - pending sale of town house - and I could take him with me, safe for the vomiting issue!

How we can help you keep your animals?

can you cure IBS? Two vets haven't been able to fix it and every morning I'm searching the house to find where he vomited and clean it up. I think he would be better off (i.e. not so unhappy) if he were put to sleep, but I have tapped out my vet fund and can barely afford the money I've spent so far (over \$2K)
