ADDITIONAL COMMENTS ABOUT THE ANIMAL

I first saw her washing my car one day at the K Circle on 808 Buenaventura Blvd, Kissimmee, FL 34743. She was hanging out in the bushes near the car wash. I fed her and gave her water. She is there everyday in the same spot behind the K Circle on the side of the car wash. I go feed her at least every 2 days and another lady that I met online feeds her on other days as well. She is very fluffy, black, like green eyes, appears either overweight or over fluffy or possibly pregnant. She is skiddish and moves away if you get too close.
