

How to make a cat ring toy

Description:

Ring toys are nice and light so cats and kittens can toss them into the air or carry them in their mouth. More fun abounds with the added yarn!

Supplies Needed:

- empty cardboard paper towel or toilet tissue roll
- yarn
- scissors

Instructions:

Step 1: Cut the cardboard roll in sections no bigger than $\frac{1}{4}$ inch (or the size of your finger).

Step 2: Cut yarn into 6-to-8 inch pieces and tie one piece of yarn to each ring (Be sure to tie two knots so that it is secure and you have no loose sections where paws can get stuck).

Step 3: Donate to the shelter in a Zip Lock bag and be sure to include your name and address, and if you are part of a school or program service project on a piece of paper secured in the bag so we can thank you!
